25X1 3. [] Representative William Minshall (R., Ohio) called from Cleveland to say a close personal friend was interested in investments in the Dominican Republic and Minshall would appreciate our providing him, strictly for use without attribution, with an assessment of the prospects there, particularly from the standpoint of economic and political stability. I said we would be glad to do so, strictly unofficially and off the record. Minshall said he would appreciate receiving our views by Friday morning, 14 July.

25X1 4. [] Sam Goldberg, in the office of Senator Charles Mathias (R., Md.), called on behalf of [] [] who are writing a book on Quisling and are interested in locating related material involving [] a relative of the [] who was associated with OSS; specifically: (1) a daily diary transmitted from Oslo to James 25X1A Donovan in August/September 1945; (2) transcript of interrogation in Nuremberg in August 1945 in which he participated in the cases of Rosenberg, Keitel, Jodl, Goering and Scheidt; (3) his OSS correspondence from Norway during the period 8 May through 15 July 1945. Mr. Goldberg said he has already contacted State and Defense in this case and that he did not necessarily want us to do any digging but merely to give him advice as to the whereabouts of the material which could be passed on to the [] and I said I would 25X1A let him know.

25X1 5. [] In response to his call, met with Bill Ashworth, Senate Foreign Relations Committee staff, who explained that in connection with Senate Resolutions 230 and 273 dealing with a comprehensive nuclear test ban, the Committee wanted to make an authoritative reference in a report on the Resolutions that effective monitoring of underground explosions without onsite inspection is within the state of the art. He said the Director's response to a question by Chairman Fulbright during the 20 June hearing on SALT verification fit the bill. I told Ashworth that any attribution or quote of the Director in this connection would be totally out of the question, which he seemed to appreciate. Ashworth asked if we could review the 20 June transcript and suggest some wording for the Committee report which would do justice to the needs of both parties. In response to my question, Ashworth said that the only position communicated by the Administration to the Committee on the Resolutions was from Philip Farley, Arms Control and Disarmament Agency, and was to the effect that the last time the proposition had been thoroughly reviewed was in 1963 and it could be reviewed once again. (Ashworth made no mention of State's report to Chairman Fulbright on S. Res. 230 which the Office of Management and Budget had coordinated with us and which stated

2:00 p.m. tomorrow afternoon for a brief talk on the Agency.

25X1 8. [] Met with George W. Ashworth, Senate Foreign
Relations Committee staff, and utilizing information provided by Mr. Bruce
Clarke, I briefed him on the missile carrying capacity of the Soviet Y-class
submarine. No further action is required.

25X1 9. [] Met with John Martin, Chief Counsel, House
Ways and Means Committee, and discussed with him the background of various
pieces of legislation involving tax exemption for disability payments. In brief
Martin advised that even though there has been no change in the overall attitude
of the Committee opposing such measures, anticipated changes in the com-
position of the Committee after January could provide a more favorable climate
for consideration of an amendment to the Agency Retirement Act. He suggested
we discuss the matter further immediately after the first of the year.
